

HA VAN HIEN

AI Engineer

21 Nhon- Bac Tu Liem
0397003364
hienhv2@fsoft.com.vn

OBJECTIVE

Seeking a fulltime position in the IT industry, working as professional AI Engineer

EDUCATION

Hanoi University of Industry

2018-2022

Information Technology

GCP- Google cloud platform

(Aug-Sep) 2021

[Public profile](#)

EDUCATIONAL PROJECTS

Detect face

Python programing, Personal

Python,OpenCV,numpy,pandas

Build a project for detect face, that is a small project

Lessons Learned

- [How to connect python\(CV2\) with other cam](#)

Car classify with maker

Python programing, Personal

Link project [Github](#)

Python,opencv,numpy,pandas,streamlit,matplotlib

Using pretrained model "InceptionV3" for transfer learning

Lessons Learned

- [How to build project using deeplearning skil and transfer learning](#)
- [How to show result to end-user \(streamlit\)](#)

UK used car predict price

Python programing, Personal

Link notebook [kaggle](#)

Python, numpy,pandas,matplotlib, sklearn

Lessons Learned

- [How to use pandas and numpy lib](#)
- [Use and understand function in sklearn](#)

INTERNSHIPS

Internship Academy, FPT Software

Sep, 2021

4-month python Intern Program

Python and Machine learning

TECHNICAL SKILLS

<i>Programming</i>	Python, javascript, java
<i>Frameworks</i>	flask
<i>Databases</i>	SQL Server
<i>Tools</i>	Chrome Development Tools, VS code, Git, jupyter notebook

SOFT SKILLS

Good Communication

Good Team Player

Good Presentation
